¹Mutual empowerment revenue includes: revenue generated from the introduction of overseas technologies, products and services into the Chinese market, and revenue from the export of outstanding Chinese technologies and products to overseas markets

FC2M ECOSYSTEM ENHANCES QUALITY AND EFFICIENCY OF INDUSTRY OPERATIONS

FOSUN 复星

¹ Operational members: Customers who have agreed to official member terms and conditions of the brand, have granted private personal information, including phone numbers, and are identifiable, reachable and traceable, are defined as registered members (i.e. operable members). From 2021 onwards, this statistic includes consumers in the Fosun Health ecosystem

INNOVATION-DRIVEN

FOSUN 复星

Fosun has always considered "innovation-driven" as one of its core competencies, and has long adhered to an innovation-driven strategy, creating products and solutions with technologies to address unmet needs.

Fosun has built a multi-dimensional innovation system with independent research and development, investment incubation, patent licensing, and the introduction of innovative products through cooperation

In June 2021, China's first CAR-T cell therapy, 奕凯达® Yi Kai Da (Ejilunsai Injection) was approved for launch, opening a new era of CAR-T cell therapy in China

As of the end of February 2022, Yi Kai Da has been included in "Huimin Insurance" (civil affordable insurance scheme) and more than 40 commercial insurances across 23 provinces and cities, the number of treatment centers on file has reached 75, and about 100 patients have entered the treatment process

Two engineers of Fosun Kite Tianci production team are discussing technical details

INNOVATION-DRIVEN

FOSUN 复星

Innovation-driven development is Fosun's key strategy. In 2021, Fosun invested RMB8.9 billion in technology and innovation. It has obtained more than 1,500 patents and has more than 500 new products in development to build core competitiveness

The National Sliding Centre, "Snow Dragon" (雪游龙), is the venue for bobsled, luge, and skeleton events at the Beijing Winter Olympics 2022, and the first sliding track in China. It has a total length of 1975 meters, a vertical drop of 121 meters and 16 curves. Since the track is exposed to open air while ice has to be generated repeatedly on the surface, it also has to withstand a temperature of minus 40 degrees Celsius, the steel plate must possess strong atmospheric corrosion resistance and maintain its structure at ultra low temperatures.

Nanjing Iron & Steel took up the important task and the team debugged the special process by incorporating phosphorus and other trace elements to the steel to create a "protective film", which ultimately created a resilient weathering steel to build "Snow Dragon" to make sure the games can run smoothly

Nanjing Iron & Steel customized weathering steel for "Snow Dragon" (雪游龙) in the Beijing Winter Olympics

TECHNOLOGY AND INNOVATION CAPABILITIES AS INDUSTRY ADVANTAGE **FOSUN 复星**

Investment in 2021

FES STRENGTHENS TWIN-DRIVER TO EMPOWER THE MULTIPLIER GROWTH OF FOSUN

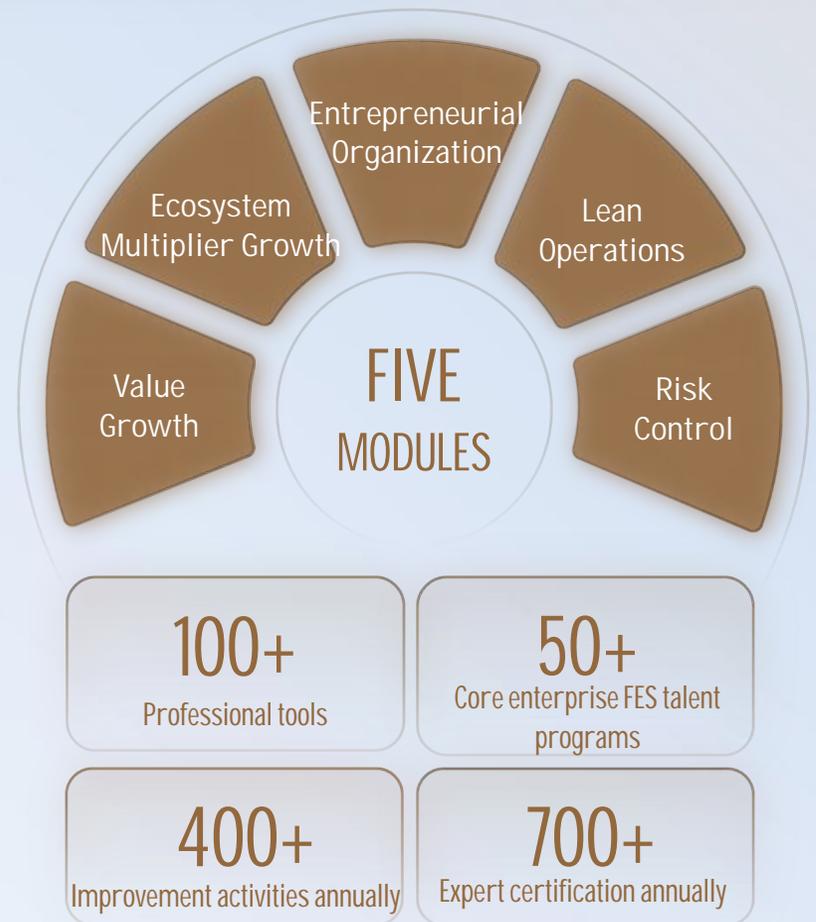

FES

(Fosun Entrepreneurship / Ecosystem System)

The FES system is a continuously evolving management system that helps Fosun build core competitiveness of a longstanding enterprise and nurture talents with Fosun's entrepreneurship. The system provides Fosun with systematic methodology, tools, and processes to realize globalization, technology innovation and smooth operation of Fosun's ecosystem. With the joint effort of all employees, a corporate culture of continuous improvement and continuous growth will be established, promoting the contribution of the "Power of Fosun" to the development of the whole society.

Committed to presenting international and Chinese contemporary art exhibitions and special exhibitions with rich content, including "Tadao Ando: Endeavors", "Yayoi Kusama: All About Love Speaks Forever", etc.

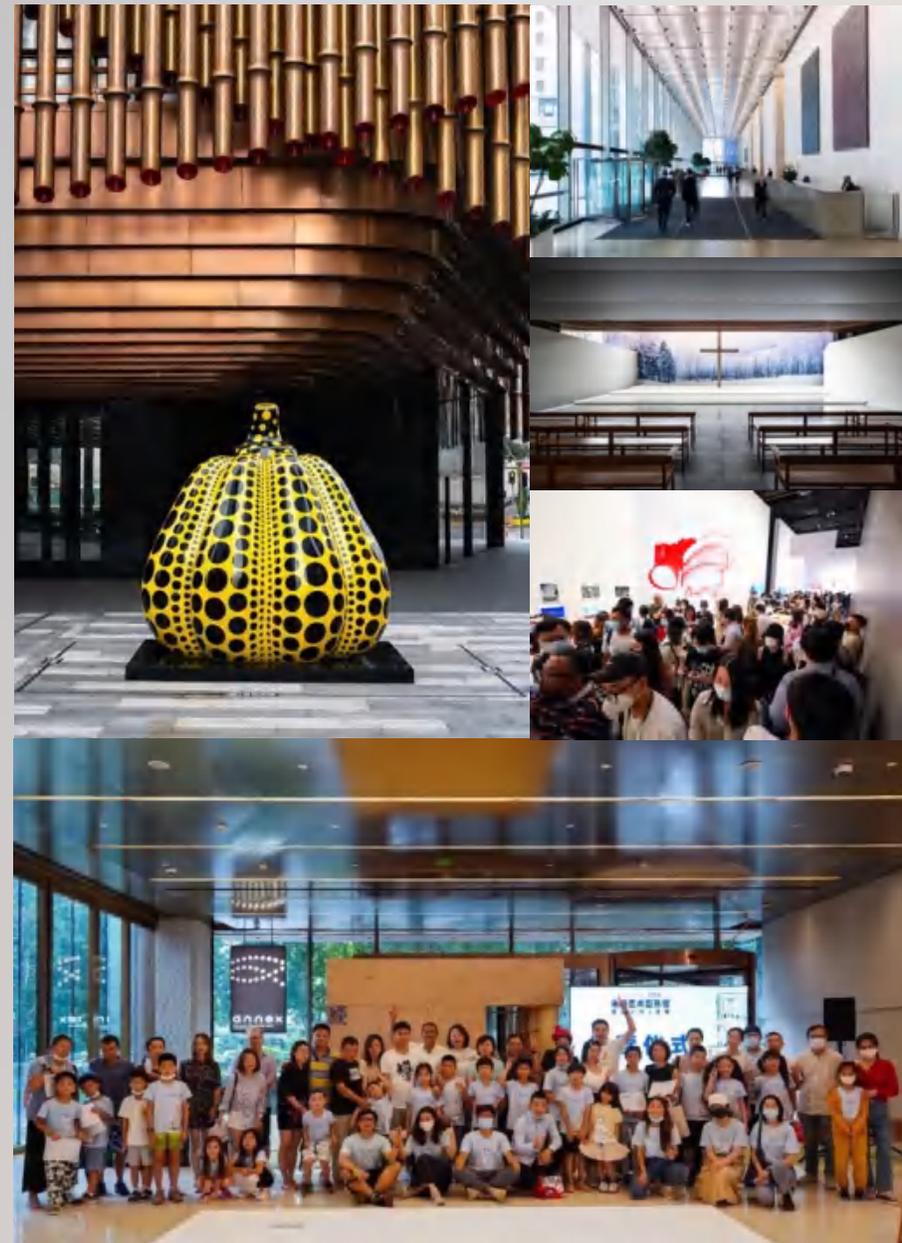

410+ public education campaigns

32800+ people participated in public education campaigns

Insist on organizing high-quality public education campaigns to help the public understand art and promote active participation in art-related events

290+ Fosun Foundation (Shanghai) Night and Aesthetic Journey

Organize diversified and comprehensive cross-brand activities to promote public awareness and public engagement in the latest contemporary art trends

FIGHT AGAINST COVID-19: STAY TRUE TO ITS ORIGINAL ASPIRATION AND CONTRIBUTE TO SOCIETY

SPRING ANTI-EPIDEMIC ACTION

(From 11 March 2022 - 18 June 2022)

6.245 million pieces

As of 9 June 2022, anti-epidemic materials donated by Fosun Foundation and its partners to support the three projects, "Community Support", "Care for Elderly" and "Care for Children" in Shanghai's battle against COVID-19

1.204 million pieces

Materials donated to government departments and public institutions

1.203 million pieces

Materials donated to education system

1.366 million pieces

Materials donated to hospitals, mobile cabin hospitals, and other health facilities

953

Community needs addressed

2.093 million pieces

Anti-epidemic and daily necessities donated

SUPPORT CHINA'S FIGHT AGAINST COVID-19 (From 24 January 2020 - present)

Deployed nearly 3 million pieces of medical materials globally

These strategic materials provide strong support for China's fight against COVID-19

When the COVID-19 epidemic broke out in early 2020 and China was in the most difficult time, Fosun leveraged its strong global resources deployment capability to source medical supplies from 23 countries

On 28 January 2020, the first batch of materials deployed by Fosun, 50,000 pieces of protective suits deployed from Germany, was delivered from Frankfurt to front-line medical staff in Wuhan and other front-line medical staff in just 5 days

More than 400

Negative pressure ambulances put into use

Fosun continues to assist Hong Kong SAR, Shenzhen, Jilin, Shanghai, etc.

The Omicron variant fueled outbreaks in many areas in 2022

GLOBAL RESPONSIBILITY (From 1 March 2020 - present)

147 million pieces

Anti-materials donated, such as COVID-19 nucleic acid testing kits, ventilators, face masks, protective suits, and gloves, for humanitarian relief support against COVID-19

More than 18000

Ventilators put into use in the global flight against COVID-19

Assisted 30+ countries

Fosun's self-developed COVID-19 nucleic acid detection kit has been certified by the China NMPA and the U.S. Food and Drug Administration (FDA), and obtained the European Union CE marking

Rolled out in Hong Kong SAR, Macau SAR and Taiwan region

mRNA-based COVID-19 vaccine developed in collaboration with BioNTech

Obtained rights to produce generic versions of the Pfizer and Merck's oral COVID-19 treatment

Through the Medicines Patent Pool (MPP)

More than 20000

Oxygen concentrators provided to support India's fight against COVID-19

100000

Pieces of KN95 face masks

RURAL DOCTORS PROGRAM

FOSUN 复星

Delivering hope to impoverished people in rural areas

The Rural Doctors Program is one of the key initiatives to realize the goal of common prosperity. In late 2017, under the guidance of the National Health Commission Poverty Relief Office, Fosun Foundation, together with China Population Welfare Foundation, etc., initiated the Rural Doctors Poverty Alleviation Program ("Rural Doctors Program") to empower millions of rural doctors who are working in the frontlines, thereby accelerating the realization of Healthy China

4 years, 226

16

73

On-site workers

Provinces, cities, autonomous regions covered across the country

Key national poverty-stricken counties (including 13 counties in Three Regions and Three Prefectures in extreme poverty, which have all lifted out of poverty)

12545

23956

3 million

Administrative village clinics assisted

Rural doctors served

Grass-root families benefited

In September 2021, the Rural Doctors Program was awarded the "China Charity Award" for its remarkable contributions

FIGHT AGAINST MALARIA IN AFRICA

FOSUN 复星

Assist in building a “malaria-free world”

2.4 billion +

The number of vials of artesunate for injection (60mg) that Fosun Pharma supplied to the global market since 2005, according to incomplete statistics

175 million

The number of children in high malaria transmission African countries benefited from SPAO-CO®Disp, a malaria prevention drug for children which was pre-qualified by the World Health Organization

48 million +

The number of patients with severe malaria that Artesun® (artesunate for injection) has saved, most of which are African children under five years old

“We will join forces and work with anti-malaria experts as well as other parties to continue to carry out malaria education projects for the public and raise the public awareness of malaria prevention. We will also actively participate in public health improvement and make steady efforts to build a malaria-free world.”

Guo Guangchang

TAI CHI ANTI-PARKINSON'S DISEASE, TAI CHI FOR DELAYING ALZHEIMER'S DISEASE

FOSUN 复星

Slow therapy for chronic disease to hold on to the good memories

Fosun Foundation cooperated with the Neurology Department of Ruijin Hospital to jointly launch "Tai Chi Anti-Parkinson's Disease" and "Tai Chi for Delaying Alzheimer's Disease"

TAI CHI ANTI-PARKINSON'S DISEASE

443	3039 hours	541 hours	19042
Patients with Parkinson's disease served since 2015	Charitable course organized	Online Tai Chi course organized since 2020	People benefited

TAI CHI FOR DELAYING ALZHEIMER'S DISEASE

26	160 hours
Patients with Alzheimer's disease served	Tai Chi charitable course organized

COMMUNITY TAI CHI VOLUNTEER INSTRUCTOR TRAINING

4	126	33
Community served	Elders served	Tai Chi volunteers trained

In February 2022, the research article titled "Mechanisms of motor symptom improvement by long-term Tai Chi training in Parkinson's disease patients" was published in *Translational Neurodegeneration*, an international journal in field of neuroscience

In March 2022, the research article titled "Tai Chi enhances cognitive training effects on delaying cognitive decline in mild cognitive impairment" was published in *Alzheimer's & Dementia*, the most influential and authoritative medical journal in the field of dementia research

BETTER PROTECTION FOR FAMILIES

FOSUN 复星

Comirnaty® (mRNA COVID-19 vaccine, BNT162b2)

JOINT DEVELOPMENT EFFORTS OF CHINA AND GERMANY

Continuously ensures the supply of vaccines for the Greater China region in the hope of building an immunity barrier

2020

In March 2020, Fosun Pharma obtained the license from BioNTech to exclusively develop and commercialize BioNTech's COVID-19 vaccine based on its proprietary mRNA technology platform in the Chinese Mainland, Hong Kong SAR, Macau SAR, and Taiwan region

2021

Comirnaty® was included in the government vaccination programs in Hong Kong SAR and Macau SAR in March 2021, and administered in Taiwan region since September 2021

2022

As of the end of March 2022, more than 24 million doses of Comirnaty® (mRNA COVID-19 vaccine) have been administered in Hong Kong SAR, Macau SAR and Taiwan region, assisting the regions to build a COVID-19 immunity barrier

In May 2022, the preprint platform, *The Lancet*, published the Phase II clinical study of Fosun Pharma's mRNA COVID-19 vaccine, Comirnaty® (BNT162b2)". Research findings show that two doses of Comirnaty® administered 21 days apart in healthy Chinese individuals and Chinese individuals with stable underlying disease would induce a strong immune response with a favorable safety profile

On 27 February 2021, the first batch of Comirnaty® (mRNA COVID-19 vaccine) arrived in Hong Kong SAR from Germany
